

The Eliminator Shaft Mount Reducer

SCSMR Series

Fully TXT compatible and screw conveyor

The Eliminator Shaft Mount Reducer is designed for traditional TXT conveyor applications as well as screw conveyor applications. Dimensionally equivalent to the popular TXT series shaft mount reducer, the Eliminator accepts CEMA-rated screw conveyor flanges, CEMA-rated drive shafts, and all TXT compatible accessories. The universal compatibility of the Eliminator allows distributors to eliminate unnecessary inventory while utilizing an existing stock of accessories and a previously installed base. For new applications, WorldWide Electric offers a complete line of motor mounts, belt guards, tapered bushing kits and backstops to complement your operations.
